This composite was created May 1, 2008 and contains only fee-paying fully discretionary portfolios. The composite is measured against the S&P 500(tr) Index, which is an index of US stocks designed to represent the US stock market. The minimum portfolio size for inclusion in this composite is \$100,000. Policy requires the removal of any portfolio that falls below \$100,000. The removal of a portfolio occurs at the beginning of the quarter in which the balance falls below \$100,000. The portfolio re-enters the composite the quarter after the balance reaches \$100,000. Additional information regarding the inclusion and exclusion of accounts is available upon request.

SFE management fee schedule for the composite is 2.50% on the first \$100,000, 2.25% on the next \$200,000, 2.00% on the next \$700,000, 1.75% on the next \$2 million, 1.5% on the next \$2 million, 1.25% on the next \$5 million, 1.00% on the next \$10 million and 0.75% on amounts in excess of \$20 million. Actual management fees incurred by clients may vary. SFE’s sub-advised management fee is 0.50% subject to a \$500.00 minimum annual fee in most cases. Actual sub-advised management fees incurred by clients may vary.

Composite returns are presented gross and net of management fees. Gross returns for some accounts sub-advised by SFE are stated as gross of all management fees and transaction costs and are shown as supplemental information. Net of fee performance was calculated using actual management fees. Composite results include accounts no longer with the firm.

The annual composite dispersion presented is an asset-weighted standard deviation of the accounts in the composite the entire year. As of 1/1/15 accounts with assets other than equities are no longer eligible to be placed in the strategy. Carve-outs were included in this composite until December 31, 2009. Prior to that date, we took the composite level cash percentage and composite level cash performance and allocated that to the equity returns. Additional information regarding the policy for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.
